

ESCAIDE 2022 Newsletter 4 | 11 October 2022

ESCAIDE 2022 updates

Late breaker abstract results – the ESCAIDE scientific programme is complete!

The call for late breaker abstracts to be presented at ESCAIDE 2022, which report on acute public health actions or contain novel surprising findings, closed on 14 September. We received over 90 submissions, and 21 were selected through a review process by the Scientific Committee to be presented at ESCAIDE, as orals, posters and online-only posters. Results were communicated by email to authors on 6 October.

This means the ESCAIDE 2022 scientific programme is complete! Abstract presentations cover a wide range of fields including outbreak monitoring, vaccine effectiveness, health promotion, surveillance and more, for infectious diseases that are affecting Europe and beyond – see the sessions and abstract titles in the detailed programme on the [Programme page](#). Closer to the conference, all abstracts, including the online-only posters, will be on the online platform (*Swapcard*) and in the Abstract Book.

Register to attend ESCAIDE 2022 online

Online registration is open for all until the conference, allowing you to participate remotely. All sessions at ESCAIDE will be streamed live to the Swapcard platform.

Registration to attend ESCAIDE in-person has closed, confirmation emails were sent on 16 September. For those who are registered in-person, please [contact us](#) if you are unable to attend, so your place can be reallocated.

ESCAIDE 2022 accredited with European CME credits

The European Scientific Conference on Applied Infectious Disease Epidemiology, Stockholm, Sweden, 23/11/2022-25/11/2022 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 17 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Host cities for 2023 and 2027 – ESCAIDE is going to Spain and Czechia

After two years of online conferences, the hosting of ESCAIDE is returning to bi-annual rotation between Sweden and another EU/EEA Member State, now also as a hybrid event. As Poland placed a successful proposal prior to the pandemic, ESCAIDE will be hosted in Warsaw in 2025. After an application process this summer, we are pleased to announce the hosting of ESCAIDE 2023 in Barcelona, Spain and 2027 in Prague, Czechia. ESCAIDE 2024 and 2026 will take place in Stockholm, Sweden.
